

A MISSION FOR PLANETARY BIODIVERSITY

Professor Paul D. N. Hebert

Professor, University of Guelph
Guelph, Ontario, Canada

Recipient of the 2024 Benjamin Franklin Medal in Earth and Environmental Science

University of Guelph photo

The event will feature a lecture by Professor Paul Hebert followed by a question and answer period. Professor Hebert is known as “the father of DNA barcoding.” He is the founder and director of the Centre for Biodiversity Genomics at the University of Guelph, which houses the world’s largest DNA archive for biodiversity.

THURSDAY, APRIL 18, 2024

10:15 am – 11:45 am
